

Take part in our **FREE** seminar, and learn how aesthetic medicine can increase your profits.

Educational Aesthetic Dinner

SPEAKER: Jason C. McBean, MD

Get ready to learn...

- Profitable cosmetic procedures fastest growing in aesthetic medicine
- Innovative technology for patients seeking cosmetic procedures
- Increase patients and revenues - marketing when you need it
- How many potential patients are looking for treatment in your area

Learn about the latest advances in aesthetic laser treatments and how you can greatly increase your practice's profits. Topics include ablative and non-ablative fractional technologies, wrinkle reduction, hair removal, laser skin renewal, facial and leg spider vein treatments, sun-damaged skin treatments and more.

Course certificates and manuals will be provided.
